Planning zone: **??9**

Residential Plot in the heart of Agios Dometios, in close proximity to St. George Church. A quiet residential neighborhood providing convenient access to downtown Nicosia (3 minute drive), to local shopping, dining and entertainment options. Perfect opportunity for a family wishing to build a house on a spacious plot in a community rather than the distant outskirts of suburbia. Residential zoning ??9 allows for continuous construction along a roadside frontage of approx 24 meters - this means edge to edge utilization of the plot without a 3 meter perimeter as required in most other residential areas.

After getting the relevant permits from the local authorities, a density of 120% allows ...
