""An entire older apartment building located in the prime Neapolis area of Limassol, just 150-200 meters from the beach and near Enaerios. The building consists of three 3-bedroom apartments, offering generous living spaces and natural light. While the structure is dated, it presents a fantastic investment opportunity for renovation or redevelopment in a highly desirable area. Close to all amenities, including shops, restaurants, and the bustling seafront, this property is perfect for those looking to capitalize on its location and potential.""...
