""""""""An Exceptional High-Tech and Constructed with the Highest Specification. The design of modern building requires a delicate balance between design and functionality. This balance should satisfy all people involved in the desing and use of the building. An impressive five floor building with covered area 1701sqm, which is located in Spyrou Kyprianou Avenue, represents and satisfies the highest quality, design and technological equipment standards set by the owners. It is a unique building with an inner atrium that occupies the entire height of the building, giving it an exceptional splendor.

For security purposes of the building it has been decided to install a closed circuit surveillan...
