""""A unique villa for sale in a top location, 5 km from Nicosia. The project was carried out by a reliable developer using high-quality building materials that meet European standards and have high noise, heat and sound insulation, which will significantly affect the savings in electricity consumption. Increased insulation will ensure a comfortable temperature and prevent the appearance of mold. The villa is equipped with everything necessary for a comfortable stay of residents and includes installed air conditioning, ventilation, underfloor heating, photovoltaic system. Plumbing and kitchen sets, as well as built-in wardrobes from leading European manufacturers. Among other things, the pro...
